We are always ready to lend a helping hand to the man who uses good judgement in increasing his facilities for making money.

Ours being a farming community, we believe that the real KEY TO SUCCESS is diversification; various crops and more good stock.

Valley Farmers

We now have our bean elevator in operation in Estancia and can take care of your beans in the usual way. You should take advantage of the good weather we are having and haul your beans to town and store them, in case you don't care to sell at present.

Our storage charges are very reasonable when you consider that 5 cents per hundred for the first month and 3 cents per hundred for each additional month pays all storage and insurance. You cannot afford to keep your beans at home when such cheap storage can be secured. We still have plenty of sacks for farmers to use in hauling their beans to town and glad to accommodate by loaning them out. Don't make the mistake of thinking that you obligate yourself by using our sacks. It will always pay you to see our buyers before selling.

As soon as the Bean season is past, we will be glad to clean seed Beans for our patrons, free of charge, but please don't bring them in until a little later. We will notify you through this ad when we can handle them for you.
